

ENVIRONMENTAL POLICY

SMM - Sociedade de Montagens Metalomecânicas, SA is a company with extensive experience in the area of assembly of equipment and industrial installations. The Company has a flexible enough structure to participate in works of any size, offering a team of technicians with proven technical experience, as well as a full range of appropriate means in terms of equipment.

We have defined the following commitments contributing to a sustainable development which are guiding our activity as we are aware of the relevance of some of the effects of our activities on the Environment and certain requirements of productivity and competitiveness in the short and medium term, such as the compatibility of economic development with environmental concerns:

- Comply with the legislation, regulations and the relevant applicable directives and other requirements relating to the environment, within the Company's activity;
- Ensure the establishment, implementation and maintenance of the Environmental Management System, in accordance with the requirements of the standard NP EN ISO 14001;
- Ensure the commitment to perform our activity in line with the Environment protection throughout the entire value chain, so that, and whenever possible, to control at the origin the significant environmental aspects of our activities, products and services or, and if not possible, trying to mitigate its negative impacts and optimizing the storage system and collection of waste generated;
- Define and implement measures leading to continuous improvement of environmental performance through periodic reviews of the Environmental Management System, which result from the analysis of the follow-up of the environmental objectives, regular monitoring of business results, and feedback from customers, suppliers and other stakeholders;
- Promote ways and means to foster all employees knowledge and the understanding of these commitments, through their communication in awareness and training actions, and all levels of the organisation should endeavour a conscious and environmentally responsible behaviour when performing their individual and collective tasks;
- Ensure that our suppliers and persons working for us, or on our behalf, will comply with our environmental measures;
- Develop the dialogue with all stakeholders in order to exchange information and strengthen improvement solutions.

The Administration assures that this Environmental Policy is revised whenever required, so that an appropriate document is continuously kept and that its respective updates are made available, in order to make public the Company's environmental awareness and commitment.
